

Office Safety Precautions in Effect During the Pandemic

Life Care Wellness is taking the following precautions to protect our clients and help slow the spread of the coronavirus.

- Office seating in the waiting room and in therapy rooms has been arranged for appropriate physical distancing.
- Our staff will wear masks in the public areas of our offices, as well as by mutual agreement in the therapy office.
- We will maintain safe distancing; if our work requires closer distancing, we will take additional safety precautions.
- Restroom and workroom soap dispensers are maintained and everyone is encouraged to wash their hands.
- Hand sanitizer that contains at least 60% alcohol is available in each therapy room and the waiting area.
- We schedule appointments at specific intervals to minimize the number of people in the waiting area.
- We ask all clients to wait in their cars or outside until texted or called by their therapist to enter the building for the appointment.
- Areas and objects that are commonly touched are thoroughly sanitized after each use.
- Hand-shaking and hugging will be avoided – foot taps are welcome!
- Tissues and trash bins are easily accessed. Trash is disposed of on a frequent basis.
- Common areas are disinfected regularly throughout the day and thoroughly at the end of each day.
